ONE CONTROLLER SUITABLE FOR ALL MOTORS

MABARA

FUJI WITH MABARA DIRECT LANDING

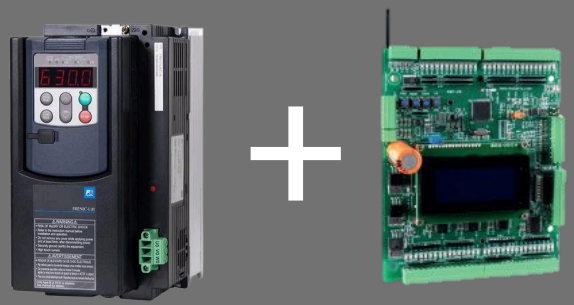

KONE MonoSpace®
Permanent Magnetic Motor

Otis Gen2®
Gearless Elevator Traction Motor

schindler®
Gearless Elevator Induction Motor

SUITABLE

GEAR OPEN LOOP
GEAR CLOSE LOOP
GEAR LESS ALL MOTORS

- **ADVANTAGES:**
- **Suitable for elevators of up to 4.00 m/s**
- **Inbuilt arrival announcer**
- **Dual-stage brake power supply**
- **Operation in high ambient temperatures**
- **Supports PM gearless machines**
- **Smooth ride performance**
- **"Direct to floor" technology**
- **Standard 31 floors full collective (full serial connection)**
- **It has an inbuilt ARD (Auto Rescue Device). It gives smooth performance while its start and stop ARD will start quickly after power shutdown (we can set a timer for ARD mode).**
- **It has a single ARD transformer, which has the benefits of multiple transformers.**
- **Automatic double door simultaneous control mode**
- **Duplex onboard group control (CAN bus serial communication)**
- **Even if the distance between each floor is 1 meter, it can operate.**
- **5 hp to 20 hp same controller**
- **It has an advantage of running the motor in full speed.**
- **No change contactor, also all HP**
- **No change wiring and ard also**
- **Only change drive rating and dbr rating only.**
- **Customized display font**

Inclusive:

- Direct landing drive with encoder card
- Voice announcer with speaker
- ARD announcement
- Dynamic brake resistor
- Read switch
- Floor magnet
- Battery cable
